## 5. Parts Inquiry Scenario

Scenario Description:

Client Company: **Oasis Prime Construction**

You are calling the Dubai branch of Mohamed Abdulrahman Al-Bahar on behalf of Oasis Prime Construction regarding a Cat 993K Wheel Loader currently deployed at one of your construction sites. The machine has been experiencing reduced traction and unusual noise coming from the front axle assembly during heavy load operations. After a preliminary inspection by your maintenance team and consulting the machine service documentation, you have identified the front axle differential carrier assembly (hypothetical part, verify part number online) as the likely source of the issue. Your goal is to confirm the part's availability, pricing, warranty terms, and delivery options so that repairs can be scheduled with minimal downtime.

Machine Model: **Cat 993K Wheel Loader**

SERIAL NUMBER**: ********** (gives as per the machine)**

Part required**: Front axle differential carrier assembly (specific part number to be confirmed)**

Inquiry Questions for Parts Purchase:

- What is the price?
- Is it available in stock?
- Is there an Online Parts Ordering system?
- Do you do the installation service?
- Is there any warranty?
- Do you offer any different PM parts options available such as a PM kit ?
- What is your shipping policy?
- If it's not available then where can I purchase a replacement?

Additional Information:

- What is the expected lifespan of a **Front axle differential carrier assembly** under normal operating conditions?

- Are there any preventative maintenance steps I can take to extend the life expectancy?

## 6. Service Inquiry Scenario

Scenario Description:

Client Company: Al Waha Developments

You are calling the Dubai branch of Mohamed Abdulrahman Al-Bahar to inquire about the Preventive Maintenance Service. You represent **Al Waha Developments** and need details for an upcoming project. Follow the inquiry structure and ensure all mandatory questions are asked.

**Service Name: Cat 426 Backhoe Loader Preventive Maintenance Service**

Inquiry Questions for Service Maintenance:

- What is the estimated cost of the complete service?
- How long will the service take to complete?
- Are there any potential additional costs or charges I should be aware of?
- Are there any specific components that typically require replacement?
- What warranty is provided for the service and any replaced parts?
- Are there any conditions or limitations to the warranty coverage?
- When can the service be scheduled?
- is there flexibility in scheduling to minimize downtime?
- Are there any options for on-site service or will the machine need to be brought to a service center?

- Does your company offer any after-service support following the completion of the service?
- What is the earliest available service appointment?
- What is the estimated service cost?
- What is the service duration?
- Do you offer pickup and drop-off service?
- Is this covered under our equipment warranty?
